

FULL NAME : Prashant Roshan
PRESENT ADDRESS : G-214, East Avenue Society, Sector 73, Noida, Uttar Pradesh, India.
CONTACT DETAIL : +91-9905117496
OFFICIAL MAIL ID : prashantroshan@live.com
LINKEDIN PROFILE : <https://www.linkedin.com/in/prashantroshan>
PORTFOLIO : <https://prashantroshan96.github.io/myPortfolio/>
CORE SKILLS : Java, Spring Boot, MySQL, HTML, CSS, JavaScript, JQuery.

Summary: Experienced Software Developer with a total of 2.5+ years of experience with a demonstrated history of work in the software industry. Having a considerable range of experience in analysing, developing, planning, coding, reviewing, testing, and implementing business technology solutions. Strong interpersonal and client handling capability.

Work Experience:

Company: Coforge

Project: Stellar and Agency Portal Platform

Role: Backend and Frontend.

Environment: Java, MySQL, JavaScript, JQuery, HTML, CSS, BootStrap, Thymeleaf.

Project Overview: Transformation in Advertisement Management

In the project "Stellar and Agency Portal Platform, I play a significant role. This initiative addresses complex advertising deals across diverse linear and online platforms, managed by various advertising agencies representing renowned brands. The project encompasses vital operations including agreement management, spot booking, advanced analytics, and revenue optimization.

Stellar, born as a Windows-based application in the early 2000s, has evolved, showcasing Coforge's innovation commitment. It forms the base for transformative sub-projects – "K2 Homepage" and my focal point, the "Agency Portal Platform.

Within the "Agency Portal Platform," I empower advertising agencies to navigate spot bookings effortlessly. This platform simplifies the complexities that marked Stellar's past processes. By generating precise analytical data from third-party ratings and viewership metrics, the platform equips agencies with insights to strategically select prime ad slots.

The "Agency Portal Platform" becomes a dynamic enabler for agencies eyeing optimal spots across traditional TV and emerging online platforms. This dual approach, coupled with analytical prowess, reshapes agencies' strategic decisions for maximal ad impact.

Responsibilities Showcased: Driving Project Excellence:

In this challenging role, I actively engage in several pivotal responsibilities, including:

- Participating as required in client facing aspects of new implementation and development.
 - Leading requirement gathering, feasibility analysis, and solution documentation.
 - Orchestrating end-to-end integration solutions aligned with best practices.
 - Developing proof-of-concepts to ensure feasibility and integration efficiency.
 - Contributing to high-level decisions for project enhancements and technical improvements.
-

Skills:

- Hardware/Platforms : Windows, Macintosh, Linux.
 - Development Languages : Java, JavaScript.
 - Databases : Oracle, MySQL.
 - J2EE Technologies : Core Java, Java 8, JDBC.
 - J2EE Frameworks/Tools : Spring MVC, Spring Boot, Microservice.
 - UI Technologies : HTML, CSS, JQuery, Bootstrap, Thymeleaf.
 - Libraries (Java) : Lombok, JSON and XML Parser.
 - Version Control : GitHub, GitLab.
 - Web Services : REST, SOAP.
 - Server/Deployment : Jenkins.
 - IDE/Others : IntelliJ, Eclipse, VS Code, STS, GitHub Desktop, JIRA, Microsoft Office.
 - Methodology : Waterfall, Agile.
-

Certifications:

- J2EE Core Certification: Core Java Certification from Rays Edutech Pvt Ltd.
 - Java Spring Boot and Microservices: Certification from Coforge.
-

Education:

- B. Tech (Hons.) in stream of CSE from Greater Noida Institute of Technology affiliated to Dr. A.P.J. Abdul Kalam Technical University.
- 12th with first division from Patna Central School affiliated to C.B.S.E in Science and Math stream.
- 10th with 9.8 CGPA from Patna Central School affiliated to C.B.S.E

DECLARATION

I hereby declare that the above-mentioned information is true and correct to the best of my knowledge and belief.
